

2017 Safety Awards

Participating in a safety awards program is an excellent way to demonstrate your commitment to safety to your insurance carrier, customers, and employees. More and more owners and specifiers are looking carefully at their contractors, and the general perception is that a firm that is actively taking steps to control safety in their operations is also better managed in other areas. Many of your clients may already be requesting your Safety Experience Modification Rates and more, as a part of the bidding process. For more information about how to enter the ASCC safety awards call 866-788-2722.

ASCC Owner/Executive Safety Award
